

≡ MANSORY ≡

Overview 2019
STALLONE

The ultra-light and high-strength CFK-Prepreg material normally is only used in aviation and aerospace, MANSORY using the autoclave-prepreg-method, the carbon is compressed so strongly in a special pressure chamber that no more air inclusions remain in the material, resulting highest and exclusiveness quality of automobile parts manufacture.

STALLONE Style Kit

description

Art.No.

Front Spoiler,

Material: CFK
exclusive design with carbon spoiler lip,
integrated Xenon lights and air grid
intakes.

with parktronic sensors
